**SHIPPING**—Please give shipping instructions whether by freight or express and route. If no instructions are given we will forward to the best of our judgment, without assuming responsibility. All goods travel at the purchaser's risk and expense.

**TRUCK SERVICE**—We are able to offer truck service within a radius of 300 to 500 miles from Shenandoah. Charges average about the same as railroad rates with delivery at your door. If interested write for further information.

**CAUTION**—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control. All contracts are subject to war priorities on materials, transportation and other causes arising that may limit, restrict or make impossible performance thereunder.

**GUARANTEE OF GENUINENESS**—If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace such nursery stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

**Claims** for any cause must be made promptly on receipt of stock. We will not entertain claims after goods have been once accepted, or when report is not made within Ten Days after arrival of stock. We express or imply no warranty as to the productiveness or life of the nursery stock we sell and will not be in any way responsible for the results secured in transplanting.

**SPECIAL NOTICE**—Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.

## DESCRIPTIONS—NEW AND SPECIAL VARIETIES

**Beacon**, (Minnesota No. 432), vigorous and extremely hardy Minnesota seedling. Fruit deep red; flesh yellowish and quality good. Duchess season but a better keeper.

**Crimson Beauty** (Ea. Red Bird) attractive, well colored apple, mottled and striped red. One of the earliest ripening varieties.

**Dolgo**, hardy fiery red Crab, desirable for culinary uses; bears young and abundantly. Good for ornamental purposes.

**Flame Crab**, (Minnesota No. 635), a hardy Minnesota seedling producing a dense mass of white flowers shaded faint pink, followed by an immense load of small, brilliantly colored fruits of excellent quality.

**Hawkeye Greening**, annually productive, hardy, large green apple. October to March; one of the best apples for culinary use.

**Joan**, an Iowa cross of Anisim and Jonathan; a productive large red apple of beautiful color. Popular for home market.

**Kendall**, a cross between McIntosh and Zusoff. Fruit a solid dark red; McIntosh season and a better keeper.

**Lobo**, a Canadian introduction, preceding its parent, McIntosh, in season. A larger and darker red hanging to the tree better than McIntosh.

**Macoun**, dark red, less striped, white fleshed, highly flavored McIntosh type of apple. Ripens 30 days later than McIntosh. Regular heavy bearer.

**McIntosh**, **Black Mickey**, superior dark red and early coloring strain from western New York. Highly recommended.

**McIntosh Early**, ripens six weeks before McIntosh; two weeks later than Transparent. Handsome red color and pleasing taste.

## DESCRIPTIONS—NEW AND SPECIAL VARIETIES—Continued

- Melba**, a McIntosh seedling from Canada. Color bright crimson over pale yellow. Season ahead of Early McIntosh and variety is adapted for home market.
- Milton**, cross of Transparent and McIntosh ripening in Wealthy season. Tree hardy and vigorous. Fruit pinkish-red, flesh white with McIntosh flavor and aroma.
- Minjon (Minnesota No. 700)**, a fall and early winter apple of about Wealthy season but a slightly better keeper; size medium, comparable to Jonathan. Color dark attractive red; flesh yellowish; flavor mild sub-acid; quality good. Very hardy.
- Minnesota No. 993**, large mid-to-late winter apple, medium red color over a greenish yellow. Quality very good.
- Minnesota No. 638**, fair size, mid-winter apple; dark red; flesh medium coarse; flavor mildly sub-acid; quality good. Late in maturing and hangs to tree well.
- Minnesota No. 790**, large mid-winter apple of M. B. Twig type. Its dull red color gives it a rich appearance. Quality good, excellent cooking and a very satisfactory dessert apple.
- Minnesota No. 714**, early summer apple, medium or above in size and bright red stripe over yellow, well colored ground. Quality good.
- Newfane**, resembles a red colored sport of Delicious. Ripens with Delicious but keeps much longer.
- Prairie Spy (Minnesota No. 1007)**, medium size, late winter apple shaped like Wealthy but late in maturing and not ready for use until about Christmas. Color bright red over a yellow ground. Excellent keeper and of great promise.
- Sharon**, new Iowa introduction of good quality and extremely hardiness. Excellent for home plantings. Color is striped red and green. Good keeper and disease resistant. A McIntosh cross.
- Winesap Crimson**, a gorgeous colored dark crimson Winesap sport averaging larger in size than the parent, the common Winesap. Originated in the Yakima Valley, Washington. Keeps in an ordinary outdoor cave until the middle of June.

## COTONEASTER PFITZERIANA

New Mount Arbor introduction. Plant has extremely dwarf habit of growth; producing an abundance of small boxwood-like foliage of rich dark glossy green; almost evergreen, holding foliage and good color well into the winter. We have named this attractive dwarf plant "Cotoneaster Pfitzeriana" because its shaped in miniature like the well known Juniper Pfitzeriana. Has proven perfectly hardy here at Shenandoah standing, without winter protection, temperatures of 10° to 15° below zero. Ideally suited for Rock Garden work or wherever a dwarf plant is needed.

**FLORIBUNDA ROSES**

The Floribunda group of roses represent hardy varieties recommended for mass color effect. The habit of growth is of medium height. They are very winter hardy, therefore permanent, disease resistant, bloom continuously in large clusters and do not fade in hot summer suns.

The Floribunda varieties should be planted in groups of three or more of a kind. They are recommended for use among shrubs, for continuous color, as hedges, borders, as massed bed plantings, for parks and along roadsides.

### ALL-AMERICA ROSE SELECTIONS

All-America Rose Selections, A.A.R.S., an organization of the leading Rose growers located in various parts of the United States, was organized in 1938 for the purpose of testing and selecting new varieties of roses of outstanding merit. The organization maintains fifteen official test gardens located in all parts of the country for the testing and judging of proposed new varieties. One test garden is maintained on our nurseries, Shenandoah, Iowa.

We offer the following varieties of roses which have secured the award of "All-American Rose Selections". These are the finest of the new varieties.

	Each	Per 10	Per 100
<b>60 Apricot Queen</b> , Patent No. 464. (Retail \$1.25 each; \$12.50 doz.) Orange and apricot at the base of petals, merging to salmony-rose and phlox-pink in the fully developed bloom. Bud is long pointed and the fully developed flower shows a regular well placed petal arrangement. Vigorous grower with handsome leathery foliage. Selected by "All-America Rose Selections" as one of the two finest roses to be introduced in 1940.	\$.075	\$ 7.00	\$ 60.00

Our Rose storage is air conditioned with temperature and humidity thermostatically controlled—the most modern refrigeration and air conditioning equipment available.

250 <b>California</b> , Patent No. 449. (Retail \$1.50 each; \$15.00 per doz.) The color is a glorious shade of ruddy-orange with saffron-yellow, with exterior of the broad petals overlaid with Saturn rose—a dual tone effect of indescribable richness and beauty. Long pointed buds opening to flowers of enormous size, reaching a diameter of 5 inches to 6 inches. Growth vigorous with healthy, glossy green foliage. Award "All-America Rose Selections" 1940. ....	\$1.00	\$ 9.00	\$ 75.00
150 <b>Charlotte Armstrong</b> , Patent No. 455. (Retail \$1.25 each; \$12.50 per doz.) Unique color with long slender blood-red buds opening to magnificent brilliantly colored open flowers, spectrum-red in cool weather, cerise in hot weather. The long stemmed blooms are produced in great quantities throughout the season and are ideal for cutting because they open slowly and are beautiful until the last petals drop. Vigorous growth, free branching plants with heavy handsome foliage. Charlotte Armstrong is the only strictly new rose to receive an unqualified recommendation for 1941 by "All-America Rose Selections". ....	.75	7.00	60.00
70 <b>Dickson's Red</b> , Patent No. 376. (Retail \$1.25 each; \$12.50 per doz.) The first award "All-America Rose Selections" for Hybrid Teas 1940. A glowing scarlet red rose from Emerald Isle. Rich in fragrance, standing the hottest sun, retaining its color. Produced singly on long strong stems. ....	.75	7.00	60.00
100 <b>Flash</b> , Patent No. 396. (Retail \$1.00 each; \$10.00 per doz.) Climber or Pillar Rose of glowing, vivid, orange-scarlet, center gleaming yellow with golden anthers. Blooms early June and continuing for weeks. ....	.60	5.50	50.00
100 <b>Grande Duchesse Charlotte</b> , H.T., New. (Patent applied for) (Retail \$1.50 each; \$15.00 per doz) Dusky red. This Rose aristocrat provides a color unknown in any other Rose. The beautiful, long streamlined buds are glowing Morocco-red and open to 25 firm-petaled blooms of dusky coral red which do not fade, but gradually merge to a soft coral pink. When unfolding the petals recurve and make a delightfully informal, artistic flower with a hint of carnation fragrance. Award of "All-America Rose Selections" for 1942. ....	1.00	9.00	75.00

## PERENNIALS

We have one of the largest and most complete assortments of Hardy Perennials, Alpine and Rock Garden plants of any nursery in the Middle West. Our plants are, except as specified, field grown, properly transplanted to give the necessary root development for high class landscape planting.

We have approximately 60 acres of overhead irrigation, devoted to the propagation of our Perennial and Rock Garden plants. We have searched the world over for new varieties of seeds and plants.

All perennials should be shipped by express. They are very perishable and should not be included in a freight shipment.

RG indicates the adaptability for rock garden planting.

The perennials that we are offering in this section are bare root, most suitable for landscape planting. If you are interested in packaged perennials, bulbs, etc., please write for our special price list No. 13, which covers a complete assortment of the more popular selling items suitable for store and counter trade.

## PHLOX PANICULATA

For a good many years we have made a specialty of growing Phlox. Most of our plants are strong, one year old, which we recommend very highly. Two year plants are very woody and are hard to transplant.

Phlox can be transplanted from the middle of September until the ground freezes up, or can be planted in the spring just as early as the ground thaws out.

PLEASE NOTE the grade we are listing is strictly No. 1 grade. We have No. 2 grade plants which are not quite heavy enough for No. 1 specifications which can be purchased from us at 2c per plant discount.

# WITH THE NATION AT WAR

All civilian industries, including the Nursery business, are experiencing difficulties with manpower shortages, priorities, serious delays in transportation, etc.

The primary job is to win the war, and we are glad to do our part. Nursery products are essential to the war effort, and all of us must do everything we can to supply the demand.

We have a good force of willing workers, considering the labor shortage, and are making good progress but cannot handle orders for assorted lists of broken bundles. We have had to break in a good many order fillers and ask you to be patient as there may be some increase in mistakes and also some unavoidable delay.

L.C.L. Rail and Truck freight deliveries may be slower than usual. Plan for longer time enroute and when cost is not too great, have shipments forwarded via express.

Many varieties of stock are already short, and the number will increase as the season advances—when-ever feasible, specify a second choice in variety or grades. We shall make every effort to take care of our customers in a satisfactory manner.
